

THE FERRYMAN

A river that keeps returning

Complete illustrated print-and-cut kit. One player station, with facilitator-controlled route offers. Play endless survival as Charon's apprentice.

Print this PDF once, in full

31 A4 pages. Color, single-sided, actual size / 100%. Turn off fit-to-page, booklet and duplex. Print CUT pages on opaque card, or mount them to opaque card after printing. Keep all other pages whole.

Use a printer, paper or card, scissors, pencil and eraser. Glue is optional for mounting. No phone, internet or app is needed. Check printer scale before printing the remaining sheets.

This line must measure 50 mm.

Replacement PDFs contain pages from this master. Do not print the full kit and the cutout PDF for one ordinary set.

Assembly and component inventory

One station

Print the complete master once. Keep pages 1-16 whole. Cut pages 17-31 on their solid outer borders. White gutters are waste. No required shape has a curved cut or fine silhouette.

Opaque fronts, plain backs

Soul cards and offer slips must hide their fronts when face down. Use opaque stock or glue each printed sheet to plain opaque card, let dry, then cut. Backs remain plain and identical within each shuffled or concealed class. No duplex alignment is needed.

Inventory by sheet

Cards are 90 x 112 mm unless a different size is shown below. Card gutters are at least 6 mm. Markers are 15 x 15 mm.

17-18	8 ordinary soul cards, one per identity
19	4 PoLong cards: 2 base + 2 spare instances
20-21	6 destination map cards, one per destination
22-28	28 memories: 4 per rewarding source soul
29	1 Passage memory (quest reward, once per run)
30	6 offer slips (90 x 50 mm); 2 reusable PoLong templates (90 x 66 mm)
31	22 markers (15 mm); Soldier second-seat marker (90 x 24 mm)

Keep-whole play aids

Pages 12-16: shore, two boat panels, dashboard and route mat. Place boat panels side by side. Rules: pages 5-10. Page 2 is the quick reference. Page 11 is a blank workshop record.

Spare pieces do not add souls or change spawn timing. Print pages 20-21 again only if the facilitator wants extra destination pictures. Keep extra ordinary identity cards out of play.

Table setup / one player station

MEMORY RESERVE

ROUTE OFFERS

DASHBOARD

1 Sort the supplies

Separate ordinary souls, PoLong, destination maps and source-labeled memories. Place memories face up in 8 reserve stacks: Mother, Merchant, Soldier, Poet, Cook, Mason, Keeper and Passage. Child and PoLong give no memory.

2 Prepare the shore

Place Mother, Child, Merchant, Mason and Cook waiting at anger 0. Shuffle Soldier, Poet and Keeper face down as the arrival pile. Leave the resolved-soul discard empty. Never mix PoLong into these piles.

3 Set the dashboard

Light 6; completed cycles 0 (current cycle 1); global round 0; ordinary deliveries 0; quest AVAILABLE. Hand empty. Put anger markers at 0 or pencil-mark card tracks.

4 Stage routes and board

The facilitator prepares the current and next two pairs using page 16 and the six offer slips. Keep future pairs face down. Choose at least one ordinary passenger within 4 seats; reset boarded anger to 0. Keep the player guide nearby.
