

Player guide / keep at the table

Goal and setup

Survive for as long as desired. Light 0 means immediate loss. Start Light 6 (maximum 6), no memories, global round 0, cycle 1. Follow setup on page 4. There is no automatic victory.

Board at the shore

Take at least one ordinary soul, up to 4 seats. Soldier takes 2; each other ordinary soul takes 1. Reset boarded Ship Anger to 0. Choices may be reversed before departure.

OUTWARD ROUND

1. Optional: play 1 memory. Resolve it fully. If it empties the boat, return without starting a round.
2. Advance the global round. On every multiple of 3, add a fresh PoLong at Ship Anger 0, even with 4 seats occupied.
3. Choose 1 of 2 offered destinations. Fog = base fog + PoLong penalties - Fog Shield, minimum 0. Apply Guard, then lose Light. At 0, stop before delivery.
4. Optionally deliver matching souls. Take each fixed memory reward, plus any quest reward. Unmatched souls stay aboard.
5. Remaining passengers gain 1 Ship Anger. At 4, each costs 1 Light and leaves. Guard can prevent the next 1 loss. Stop immediately at 0. Keep at most 3 memories.
6. Empty boat: return. Otherwise start another outward round.

Return, only when the boat is empty

Optional 1 memory, unless Passage already used this allowance. Waiting souls gain 1 Shore Anger; at 2, each costs 1 Light and leaves. Stop at 0. If alive, restore 2 Light (max 6), record a completed cycle, refill the shore to 5 and get new route offers.

PoLong: anger 0-1 adds 0 fog; 2-3 adds 1 each.

Memories: at most 1 before each outward round or return.

Quest: Child to Haven, then Mother to Tartarus, once per run.

Full details, recycling, quest failure and examples: pages 5-10.
