

THE FERRYMAN

A river that keeps returning

Complete illustrated print-and-cut kit. One player station, with facilitator-controlled route offers. Play endless survival as Charon's apprentice.

Print this PDF once, in full

24 A4 pages. Color, single-sided, actual size / 100%. Turn off fit-to-page, booklet and duplex. Print CUT pages on opaque card, or mount them to opaque card after printing. Keep all other pages whole.

Use a printer, paper or card, scissors, pencil and eraser. Glue is optional for mounting. No phone, internet or app is needed. Check printer scale before printing the remaining sheets.

This line must measure 50 mm.

Replacement PDFs contain pages from this master. Do not print the full kit and the cutout PDF for one ordinary set.

Player guide / keep at the table

Goal and setup

Survive for as long as desired. Light 0 means immediate loss. Start Light 6 (maximum 6), no memories, global round 0, cycle 1. Follow setup on page 4. There is no automatic victory.

Board at the shore

Take at least one ordinary soul, up to 4 seats. Soldier takes 2; each other ordinary soul takes 1. Reset boarded Ship Anger to 0. Choices may be reversed before departure.

OUTWARD ROUND

1. Optional: play 1 memory. Resolve it fully. If it empties the boat, return without starting a round.
2. Advance the global round. On every multiple of 3, add a fresh PoLong at Ship Anger 0, even with 4 seats occupied.
3. Choose 1 of 2 offered destinations. Fog = base fog + PoLong penalties - Fog Shield, minimum 0. Apply Guard, then lose Light. At 0, stop before delivery.
4. Optionally deliver matching souls. Take each fixed memory reward, plus any quest reward. Unmatched souls stay aboard.
5. Remaining passengers gain 1 Ship Anger. At 4, each costs 1 Light and leaves. Guard can prevent the next 1 loss. Stop immediately at 0. Keep at most 3 memories.
6. Empty boat: return. Otherwise start another outward round.

Return, only when the boat is empty

Optional 1 memory, unless Passage already used this allowance. Waiting souls gain 1 Shore Anger; at 2, each costs 1 Light and leaves. Stop at 0. If alive, restore 2 Light (max 6), record a completed cycle, refill the shore to 5 and get new route offers.

PoLong: anger 0-1 adds 0 fog; 2-3 adds 1 each.

Memories: at most 1 before each outward round or return.

Quest: Child to Haven, then Mother to Tartarus, once per run.

Full details, recycling, quest failure and examples: pages 5-10.

Assembly and component inventory

One station

Print the complete master once. Keep pages 1-16 whole. Cut pages 17-24 along the bronze card borders. Neighbouring cards share a cut line, so one cut separates two cards. No required shape has a curved cut or fine silhouette.

Opaque fronts, plain backs

Soul cards and offer slips must hide their fronts when face down. Use opaque stock or glue each printed sheet to plain opaque card, let dry, then cut. Backs remain plain and identical within each shuffled or concealed class. No duplex alignment is needed.

Inventory by sheet

Cards are poker size, 63 x 88 mm, nine per sheet. Offer slips are 90 x 50 mm. Markers are 15 x 15 mm.

17	8 ordinary soul cards, one per identity, and PoLong 01
18	PoLong 02-04 (01-02 base, 03-04 spare) and 6 destination map cards
19-22	28 memories, 4 per rewarding source soul, and 1 Passage (quest reward, once per run)
23	6 offer slips (90 x 50 mm); 2 reusable PoLong templates (90 x 66 mm)
24	22 markers (15 mm); Soldier second-seat marker (90 x 24 mm)

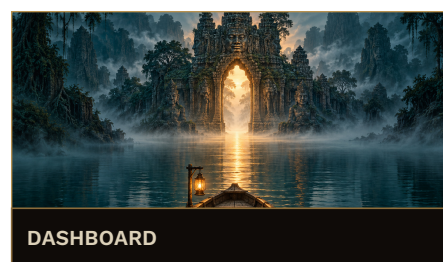

Keep-whole play aids

Pages 12-16: shore, two boat panels, dashboard and route mat. Place boat panels side by side. Rules: pages 5-10. Page 2 is the quick reference. Page 11 is a blank workshop record.

Spare pieces do not add souls or change spawn timing. Print page 18 again only if the facilitator wants extra destination pictures. Keep extra ordinary identity cards out of play.

Table setup / one player station

An illustrated table arrangement

1 Sort the supplies

Separate ordinary souls, PoLong, destination maps and source-labeled memories. Place memories face up in 8 reserve stacks: Mother, Merchant, Soldier, Poet, Cook, Mason, Keeper and Passage. Child and PoLong give no memory.

2 Prepare the shore

Place Mother, Child, Merchant, Mason and Cook waiting at anger 0. Shuffle Soldier, Poet and Keeper face down as the arrival pile. Leave the resolved-soul discard empty. Never mix PoLong into these piles.

3 Set the dashboard

Light 6; completed cycles 0 (current cycle 1); global round 0; ordinary deliveries 0; quest AVAILABLE. Hand empty. Put anger markers at 0 or pencil-mark card tracks.

4 Stage routes and board

The facilitator prepares the current and next two pairs using page 16 and the six offer slips. Keep future pairs face down. Choose at least one ordinary passenger within 4 seats; reset boarded anger to 0. Keep the player guide nearby.

Full rules / 1. Souls and setup

Premise, ending and cycles

One player is Charon's apprentice. Choose one of two offered destinations each outward round. Deliveries are optional and only to preferred destinations. A cycle begins with boarding and ends after the empty boat returns. There is no cycle cap, delivery target or automatic win. At zero Light, stop immediately. A voluntary workshop stop is a session stop, not a victory.

Starting state

Light 6, maximum 6; ordinary capacity 4 seats; no memories; cycle 1; global outward round 0; all anger 0. Initial shore: Mother, Child, Merchant, Mason, Cook. Initial shuffled arrival pile: Soldier, Poet, Keeper.

Soul roster

Soul	Seats	Destination	Fixed reward
Mother	1	Tartarus	Light
Child	1	Haven	None
Merchant	1	River Styx	Foresight
Soldier	2	River Styx	Guard
Poet	1	Elysium	Foresight
Cook	1	Asphodel	Calm
Mason	1	Acheron	Fog Shield
Keeper	1	Asphodel	Fog Shield
PoLong	0	Tartarus	None

Boarding

Board at least one ordinary soul within 4 seats. Soldier occupies 2 seats; place the second-seat marker beside it. Reverse choices freely before departure. Boarding resets Ship Anger to 0, whatever the old Shore Anger. After departure, do not unload back onto the shore. No older-version passive powers apply.

One active ordinary card per identity. PoLong is a separate zero-seat type whose scheduled arrivals are independent instances. Its spare cards are supplies, not extra scheduled spawns.

Full rules / 2. Outward sequence

1 Optional memory

Play at most one memory before the outward round. Consume it from your hand, resolve its effect and any rewards or excess-hand choice. If Passage empties the boat, return immediately; do not advance the global round or spawn.

2 Advance and spawn

Advance the global outward counter. On rounds 3, 6, 9 and every later multiple of 3, add a PoLong at Ship Anger 0. It takes 0 seats. Boarding, returning and Passage do not advance this counter.

3 Choose and pay

Choose one of the two offers. Base fog + current PoLong contributions - a played Fog Shield = payable fog, minimum 0. Each PoLong at anger 0-1 adds 0; at anger 2-3 adds 1. Apply Guard prevention after calculating fog. Pay Light. At 0, lose immediately, before delivery.

4 Optional delivery

Deliver any subset of passengers whose preferred destination matches. Keep the rest aboard. Each eligible ordinary delivery grants its fixed fresh memory, even after that soul recycles. Child and PoLong grant none. Resolve family quest rewards as applicable. Delivery and Haven do not heal Light.

5 Anger and wraiths

Every passenger still aboard gains 1 Ship Anger, including a newly spawned PoLong. Each reaching 4 becomes a wraith: apply 1 Light loss, then remove it. Guard prevents only the next 1 point. Stop immediately at 0. Wraiths do not remain to add fog. Ordinary cards enter the resolved discard; removed PoLong becomes reusable supply.

6 Continue or return

After rewards, choose which excess memories to discard until the hand contains at most 3. If the boat is empty, return. Otherwise another outward round is available. Newly earned memories are usable only before a later round or return; they cannot rescue zero Light.

Full rules / 3. Memories

How to play a memory

At most one before each outward round or return. It is single-use: return the used card to its source-labeled reserve. Unused cards persist across cycles. After receiving rewards, choose excess cards to discard to reserve until holding at most 3. Never take a held copy to pay a new reward.

Light

Restore 1 Light, maximum 6.

Foresight

Reveal both options at the current fork and next two forks. Revealed options stay visible for this cycle.

Guard

Prevent the next 1 point of Light loss during this outward round or return, including fog or wraith damage. Unused protection expires at that round/return's end.

Calm

Reduce one active soul's current Shore or Ship Anger by 1, minimum 0. It may target PoLong. It cannot revive a removed soul.

Fog Shield

Reduce total fog for this crossing by 1, minimum 0. It does not prevent wraith damage.

Passage

Instantly deliver one onboard soul to its preferred destination with the ordinary reward for that soul, no fog, no anger advance and no outward-round advance. It may target PoLong. If it empties the boat, this use also occupies the immediate return's memory allowance.

Fixed rewards, renewable supply

Merchant and Poet each give their own source-labeled Foresight. Mason and Keeper each give their own Fog Shield. Four copies per rewarding source support a 3-card held hand plus the next reward. Memory supply is not random. Passage follows the same hand limit and one-memory limit.

Full rules / 4. Return and quest

Return only when the boat is empty

Return has no travel fog and does not advance the outward counter. If the memory allowance is available, optionally play one before resolving return. Passage that just emptied the boat already used this allowance.

1 Waiting anger first

Every ordinary soul already waiting gains 1 Shore Anger. At 2, it becomes a wraith: lose 1 Light subject to Guard, then place it in the resolved discard. Stop immediately on zero Light, before recovery.

2 Recovery and cycle

If still alive, restore 2 Light, capped at 6. Record one completed cycle. The next cycle is completed cycles + 1; there is no limit or scheduled final return.

3 Refill and prepare

Refill the shore to 5. Draw from the arrival pile. Whenever it runs out during refill, shuffle only resolved ordinary souls into a new arrival pile. New arrivals start at anger 0 and do not receive this return's increment. The facilitator supplies the next cycle's offers.

Family quest: once per run

Deliver Child to Haven before delivering Mother to Tartarus. These deliveries may occur in different cycles. On that qualifying Mother delivery, take her usual Light memory and one Passage. The quest is optional. Keep its state across cycles and soul recycling.

AVAILABLE: Neither required delivery has yet qualified.

CHILD DELIVERED: Child has qualified; Mother is still required.

COMPLETED: Mother qualified after Child. Passage was awarded. Never award it again this run.

FAILED: Mother was delivered before Child qualified, or a still-required family member was lost before its required delivery. Recycling gives no retry.

A later recycled Child's fate does not undo the recorded qualifying Child delivery. Completed or failed quest state never resets during the run.

Full rules / 5. Worked examples

Outward round 6, from the shared rules

Light 4; Keeper and Soldier at Ship Anger 3. Play Fog Shield, then spawn PoLong at 0. Choose Asphodel: $2 - 1 = 1$ fog, so Light becomes 3. Deliver Keeper for a fresh Fog Shield. Soldier reaches 4 anger, costs 1 Light and enters the resolved discard. Light is now 2. PoLong reaches 1 anger; the boat is not empty.

Full boat and a new PoLong

Four ordinary seats are occupied before global round 3. Resolve the optional memory, then add PoLong without ejecting anybody. On Haven with no older PoLong penalty, its anger 0 adds no fog. If retained, it becomes anger 1 after delivery.

Calm and stacked fog

Two PoLong instances are at anger 2 and 3. Calm lowers the first to 1. Their contributions are now $0 + 1$. Haven's base 0 therefore costs 1 Light. Both remaining instances then gain anger; the second reaches 4 and costs another 1 Light before leaving.

Returning at low Light

Light 1 and one waiting soul at Shore Anger 1. Without protection, it reaches 2 and its wraith damage ends the run. The later 2-Light recovery never happens. With Guard, prevent that 1 loss, remove the soul, then recover to Light 3.

Renewable reward and overflow

Three Merchant Foresight cards remain in hand. Deliver Merchant again: take the fourth copy. Choose any one of the four to discard to Merchant's reserve. Held rewards are never confiscated to supply another reward.

Passage ends a cycle

Only Poet is aboard. Play Passage: deliver Poet for Foresight, without fog, anger or outward-counter change. Return immediately. Passage already used that return's memory allowance; the new Foresight cannot be played during the same return.

These are worked rule examples and agent desk checks, not records of human play.

Full rules / 6. Routes and recycling

Facilitator owns the route

Provide six distinct destination pictures, excluding the shore. The facilitator chooses, orders, shuffles and hands out offers. There is no prescribed repeating map, guaranteed destination or forced starting order. Each outward round still offers two destinations.

Stage three forks with six reusable slips

Mark exactly one destination on each slip. Put two slips in CURRENT, two in NEXT and two in NEXT + 1. Current offers face up; future offers face down on opaque backs. Put the corresponding picture cards beside the current pair when useful. A slip identifies its destination and fog even when a picture is already used elsewhere. Duplicates in the facilitator's sequence need no extra rule.

Reveal and retain information

Foresight reveals both options in the current fork and the next two forks. Before spending it, make sure the facilitator has supplied all three pairs. If required offers are missing, pause without consuming the card or advancing time. Revealed offers remain visible for the cycle. Before erasing or reusing slips, copy already revealed offers to a visible pencil ledger; add paper as needed.

Advance the physical queue

After a crossing, slide NEXT to CURRENT and NEXT + 1 to NEXT. The facilitator refills the last pair according to their chosen ordering. Reveal the new current pair normally. Do not expose an unrevealed future pair while moving it. A missing next offer is a pause for input, not a penalty or game ending.

Recycle souls and memories separately

Ordinary souls delivered or expired go to the resolved-soul discard. Shuffle that discard only when the arrival pile runs out while refilling. Never include souls aboard or waiting. If both piles are temporarily empty, do not create duplicates. Used and discarded memories return immediately to their own source reserve. PoLong stays outside ordinary piles; erase old anger before reuse.

Reset after a run

Record loss or voluntary stop on page 11. Sort all pieces, recover every held memory to reserve, clear PoLong and anger, set Light 6, round 0, completed cycles 0, deliveries 0 and quest AVAILABLE. Restore the five starting shore souls and shuffle the other three. The facilitator prepares new offers. Add paper when a counter or ledger fills; its edge is never a game cap.

Workshop record / blank human form

Blank human record. No printing or play results have been entered. Use one sheet per session; add paper for an endless run.

Date / observer / player / station

Printer / paper / color / scale setting / measured 50 mm line

Cutting, opacity and marker handling observations

Setup time / play duration / completed cycles / outward rounds / ordinary deliveries

Ending reason: Light reached 0, voluntary stop, or interrupted

Unclear rule, exact game state and page/component ID

Player comments: learning, decisions, pacing, enjoyment, balance

Changes proposed by people, not yet approved rules

Shore / boarding and soul supply

WAITING SHORE

Spread waiting souls above or beside this zone with anger visible. Start: Mother, Child, Merchant, Mason, Cook. On return, anger +1; at 2, lose 1 Light each. Stop at 0. If alive, recover 2 Light, then refill to 5.

ARRIVAL PILE

Face down. Initial: Soldier, Poet, Keeper, shuffled. Draw only for refill. New arrivals start at anger 0.

RESOLVED SOULS

Delivered + expired ordinary souls. Shuffle only when the arrival pile runs out during refill. Never include active souls or PoLong.

Boat / left panel / seats 1-2

Join the two boat pages side by side. Four ordinary seats total.

SEAT 1

Place a soul here.
Soldier also blocks one other seat.

SEAT 2

Place a soul here.
Soldier also blocks one other seat.

ZERO-SEAT POLONG LANE

PoLong instance

Place its card here; it may extend over the bottom edge of the mat. Its 0 seats never displace ordinary souls. Keep each anger track visible.

PoLong instance

Place its card here; it may extend over the bottom edge of the mat. Its 0 seats never displace ordinary souls. Keep each anger track visible.

Boat / right panel / seats 3-4

Join the two boat pages side by side. Four ordinary seats total.

SEAT 3

Place a soul here.
Soldier also blocks one other seat.

SEAT 4

Place a soul here.
Soldier also blocks one other seat.

ZERO-SEAT POLONG LANE

PoLong instance

Place its card here; it may extend over the bottom edge of the mat. Its 0 seats never displace ordinary souls. Keep each anger track visible.

PoLong instance

Place its card here; it may extend over the bottom edge of the mat. Its 0 seats never displace ordinary souls. Keep each anger track visible.

Dashboard / endless counters

LIGHT | START 6 / MAX 6

0	1	2	3	4	5	6
---	---	---	---	---	---	---

0 = immediate loss. Stop before delivery or later recovery.

Global outward round: _____ Start 0; never reset between cycles.

Completed cycles: _____ Start 0; current cycle = this + 1.

Ordinary deliveries: _____ Descriptive count, never a win target.

NEXT ROUND REMINDER

NEXT: no spawn

NEXT: no spawn

NEXT: spawn

At global round 0, start on the first reminder. Move right after each outward round; after spawn, wrap to the first. Keep the written total too.

FAMILY QUEST | PLACE Q ON THE CURRENT STATE

AVAILABLE

CHILD DELIVERED

COMPLETED

FAILED

Hand limit 3. Keep held memories beside this mat. Used/discarded memories go back to their source reserve. Keep Passage separate until earned.

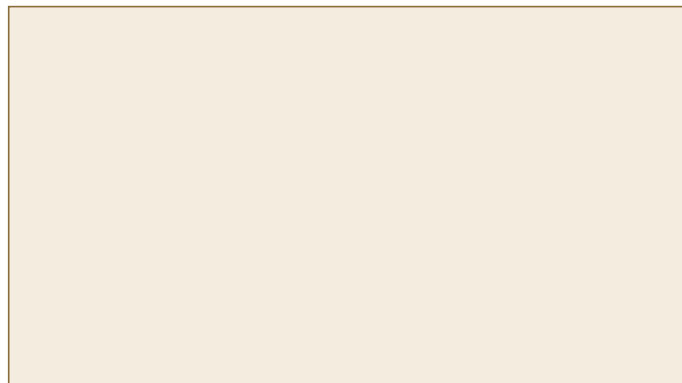

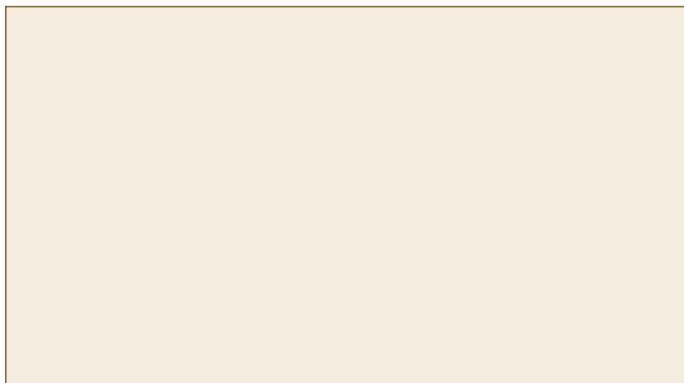

One memory before an outward round or return. Passage emptying the boat keeps USED for the immediate return. Add writing paper whenever fields fill.

READY

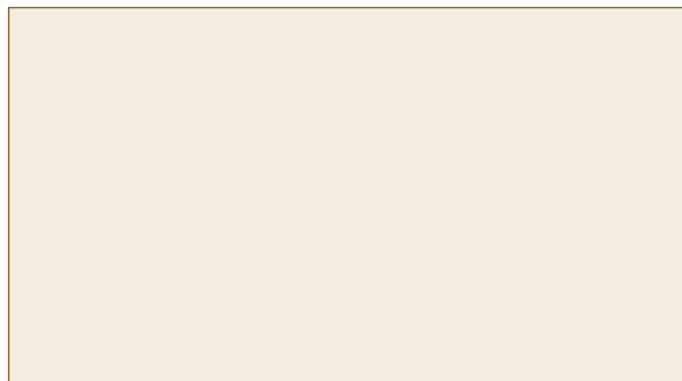

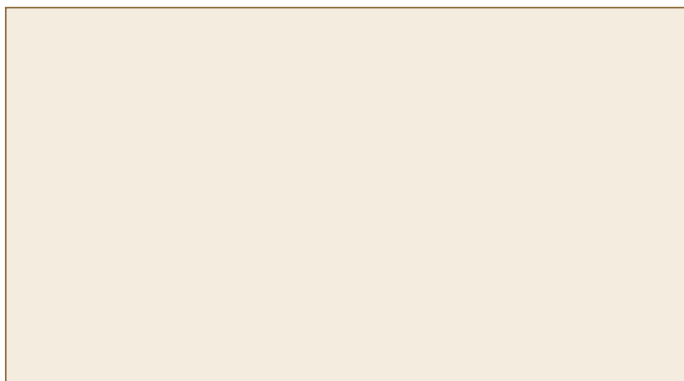

USED

Route staging / facilitator control

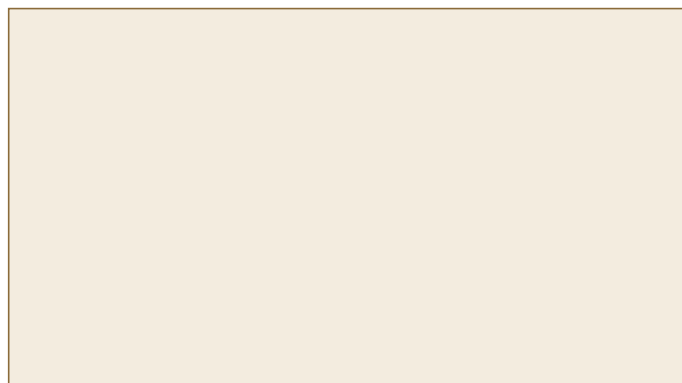

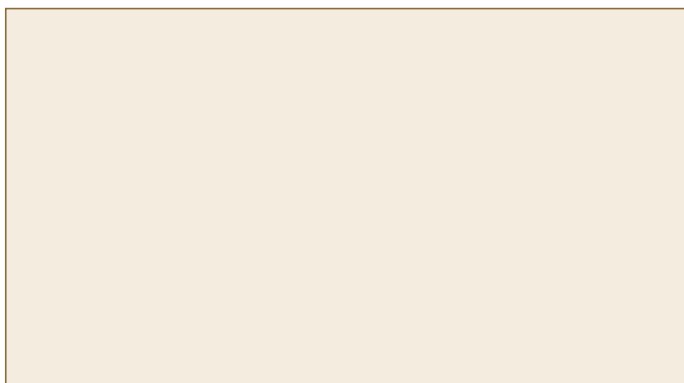

CURRENT | reveal both options

NEXT | conceal unless revealed

NEXT + 1 | conceal unless revealed

Use one 90 x 50 mm offer slip in each box. Foresight reveals all six. Move the pairs forward after travel. The facilitator supplies the new last pair; no mandatory ordering applies.

Revealed-offer ledger: keep on extra writing paper beside this mat. Retain all revealed information for this cycle before reusing slips. Missing inputs pause play without time or memory cost.

SOUL-KEEPER-MEM-04

Passage

FAMILY QUEST / ONCE PER RUN

Instantly deliver one onboard soul to its preferred destination with the ordinary reward for that soul, no fog, no anger advance and no outward-round advance. It may target PoLong.

Use before a round or return. One use; return to reserve.

MEM-PASSAGE-01

Passage timing

If Passage empties the boat, return immediately. Do not advance the global round or spawn. This use also occupies the immediate return's memory allowance. Quest status persists when souls recycle; extra copies must not create extra quest rewards.

At 4: lose 1 Light; remove.

POLONG-TEMPLATE-02

Markers and Soldier occupancy piece

SOLDIER'S SECOND SEAT

Occupied until Soldier leaves.

SOLDIER-SECOND-SEAT

Marker key

L: Light. Q: quest. R: spawn reminder. M: memory window. A01-A16: anger, one per active soul. X1-X2 are spare replacements. Pencil marks can replace markers without changing rules.

Anger handling

Use the card's track for its current location. Shore threshold is 2; ship threshold is 4. A red border is a reminder, not a separate effect. Reset to 0 on boarding. Removed instances clear their tracks before reuse.

Memory window

Place M beside READY or USED on the dashboard. Reset READY before the next round or return, except when Passage already used the immediate return allowance.
